AMBIENT

Blinds Collection

LIGHT CONTROL | VERSATILITY | INSULATION

Blinds are chosen for a more traditional look, paired with a simple transition from sunshine and light to complete privacy and room darkening.

One of the key advantages is that they block UV light to keep things cool and protect your furniture from the sun. They also offer additional insulation.

Whether you are looking for the warmth and timeless beauty of natural wooden blinds, or the contemporary style and versatility of roller blinds, we have an extensive range of high quality blinds in a variety of colours, fabrics, materials and operating systems (both manual and motorised), tailor-made for every taste...

ROLLER BLINDS – BLOCKOUT RANGE

Our collection of plain and textured Blockout Roller Blinds stops the sun in its tracks to keep your home perfectly shaded all year long. They're great for bedrooms, where they'll look modern and stylish and keep the sun from interrupting your slumber. They're great in bathrooms too, giving you plenty of privacy.

Our range of fabrics include our affordable Honey Blockout, our popular Ambient Blockout and our luxurious Doris fabrics.

Blockout Roller Blinds are perfect for any room in the home, and can even be used in commercial spaces.

They also add great insulation from outdoor temperatures.

Our Blockout Roller Blinds are available in manual and motorised options, and comes in either a cassette system or classic system with the option to add a half round valance.

ROLLER BLINDS – SUNSCREEN RANGE

If you can't get enough of the view outside your home but still require a touch of shading, our Sunscreen Roller Blinds allow plenty of light into your home while protecting you from harsh glare and UV rays. They also offer a tranquil retreat, blocking the view from the outside during the day, this is however the opposite at night time.

Combine our Sunscreen Roller Blinds with a Blockout Roller Blind to create the perfect day-night solution.

Our range of fabrics include our popular Solar Weave, our beautiful Solar Supreme and our luxurious Solar Luxury.

Sunscreen Roller Blinds will also protect your furniture, and is perfect for residential and commercial spaces.

Our Sunscreen Roller Blinds are available in manual and motorised options, and comes in either a cassette system or classic system with the option to add a half round valance.

ROLLER BLINDS – LIGHT FILTERING RANGE

For a modern look try one of our stylish light filtering plains and textured roller blinds. Our collection of stunning fabrics offers amazing shading, blocking out the glare and allowing a little soft light to gently filter through for a warm and inviting glow.

Our range of fabrics include affordable options like our Honey Daylight and Oxford fabrics, our soft Maple fabric and our durable Essence fabric.

Light Filtering Roller Blinds are a great option in any room in the home. They diffuse and soften the light and offers daytime privacy without darkening the room.

Our Light Filtering Roller Blinds are available in manual and motorised options, and comes in either a cassette system or classic system with the option to add a half round valance.

ROLLER BLINDS – ZEBRA RANGE

No other blind is quite like the Zebra Blind. It brings together practical attributes with a higher level of elegance. The Zebra Blind combines Roller Blind ease of operation, with the similar versatility and light control of a Venetian Blind.

Zebra Blinds soften excessive sunlight in general and by sliding the fabric into an 'opaque-opaque' position, the blind delivers full privacy while showcasing the eye-catching designer fabric of your choice.

Our extensive range of fabrics include everything from cost effective neutral fabrics to luxurious silky fabrics with over 30 colour options to choose from.

Our Zebra Blinds can also be motorised and comes standard in a cassette system with matching fabric inlay.

AMBI-VOILE SHEER VERTICAL BLINDS

If you're looking to create an instant impact in your home with something a little different, then our AmbiVoile Blinds would be the perfect choice. Suitable for all window types, Sheer Vertical Blinds really come into their own in larger windows and bi-folding doors, where their unique flowing fabric vanes allow both light and privacy.

The soft fabric hangs beautifully, making them perfect for creating a soft feature across a large opening.

There are no weights or chains, so with our AmbiVoile Luxury range, you can walk through them anywhere, whether they are opened or closed – they just sway out of the way and settle back perfectly.

You can have the elegance and versatility of a sheer and the privacy of a curtain. Easily adjust the AmbiVoile to control and adjust light levels depending on the position of the sun, or privacy required.

AmbiVoile can reach up to five meters in width on a single vertical track.

OUTDOOR ROLLER BLINDS

Our Outdoor Roller blinds are not only a significant way of reducing heat gain and glare, they can also be an attractive way of enhancing the architecture of the building, whether for residential or commercial use.

Our External Roller blinds come standard with a crank operated control system, but can also be motorised.

Select between our standard “free hang” blinds, which can simply be clipped down or rolled away, or upgrade to a guide wire system, where the superior quality stainless steel cable guides allow the blind to be raised and lowered without the blind blowing in the breeze.

Our Outdoor Roller Blinds features our durable, yet fashionable Outdoor Solar Weave fabric range, available in 8 neutral colours to compliment any design.

MOTORISATION

Motorised blinds are the first step to making life at home more comfortable and convenient. Opting for motorised blinds give you the option of having beautiful blinds that will open and close at the touch of a button.

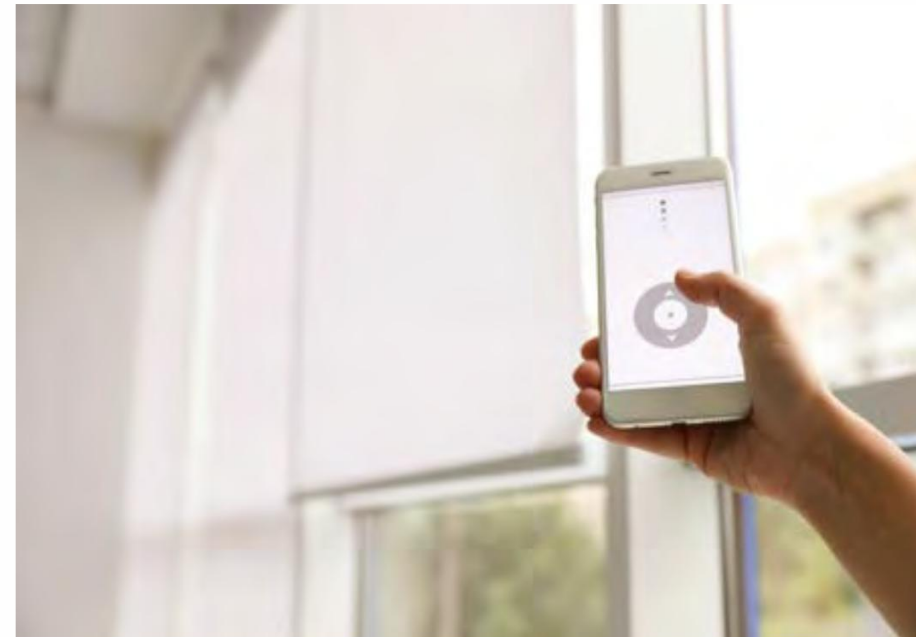

Our Ambient wired motors are available for all our Roller Blinds, Zebra Blinds, Outdoor Blinds, and 50mm Venetian Blinds (minimum widths apply). They come with a choice of 1, 5 or 15 channel remotes allowing you to control multiple blinds with a single remote control.

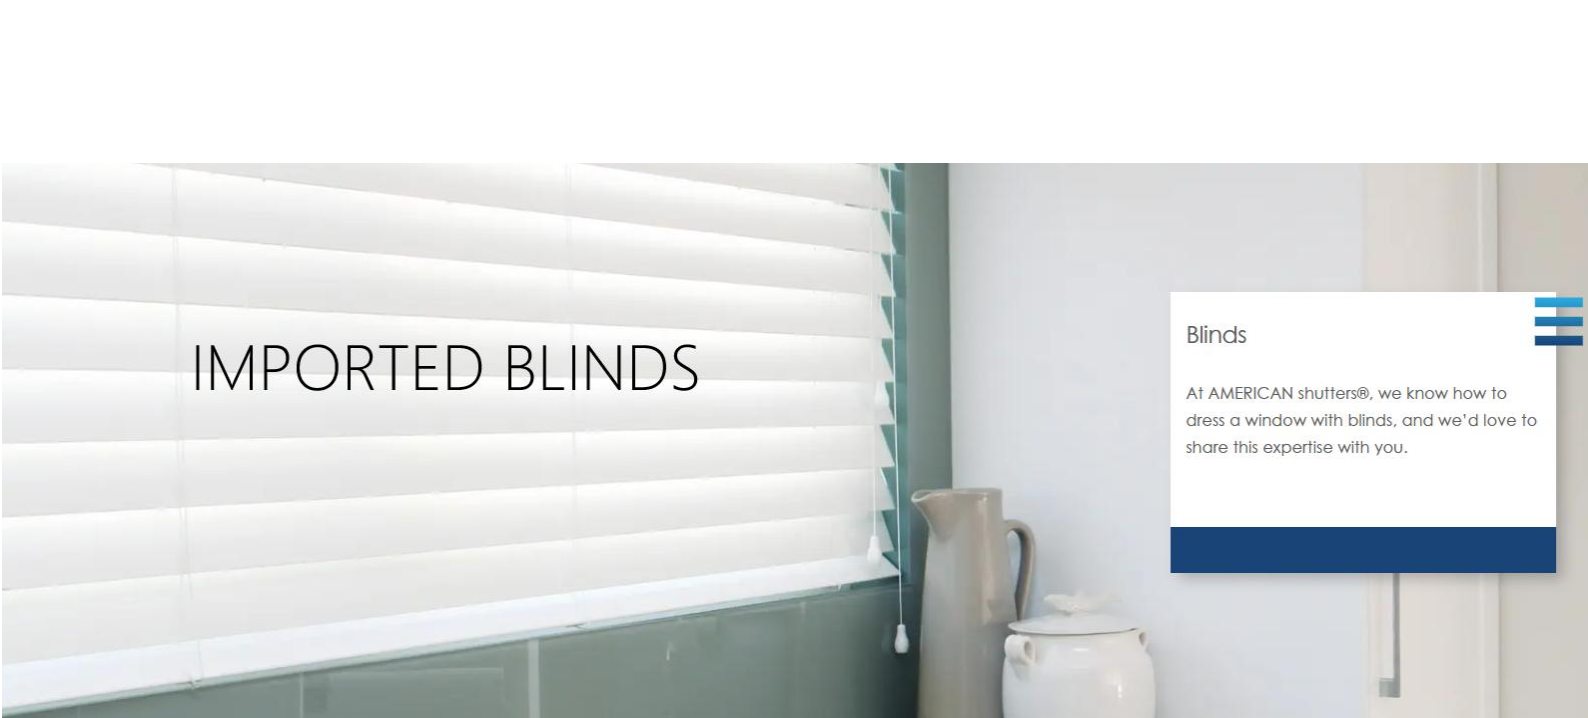

With our Somfy motorisation options, you are spoiled with battery operated motors, allowing you to operate your blinds even during load shedding. With a simple touch on your smart control or on the app, you can close all your blinds when you leave your house every morning and open them again when you get home.

It is also possible to control your devices with a compatible voice assistant.

More peace of mind and a lighter daily routine.

Wooden Slat Blinds

Perfect partner to any shutter range, our highly customisable Wooden Slat Blinds are unmatched on the South African market.

SHUTTER-LIKE SLAT WIDTH

CUSTOM-MADE

SUSTAINABLE MATERIAL FOR SUSTAINED STYLE

Our Wooden Slat Blinds are manufactured from the hardwood of the Kiri tree.

One of the most sustainable and fastest growing tree species. Sawn Kiri wood timber can be harvested in less than 10 years, after which a new tree can grow from the original stump.

Known to have one of the highest strength to weight ratios.

Free of volatile oils and low in resin, making it one of the most fire retardant timbers.

Is naturally resistant to rotting, decay and borer beetles.

Dimensionally stable over long slat lengths.

QUALITY WORTH WAITING FOR

Manufactured and installed to best practice European and American quality standards.

Only the finest materials and hardware components used.

Quarter sawn slats, for higher dimensional stability to resist cupping, twisting and warping.

Bevelled bottom rail designed to roll with the slats as the blinds are closed.

As many as three drops on a single head rail.

Custom-made quality feature - ladders at a constant distance of 150mm from the edge of the blinds.

- 2 slat widths — standard 50mm and shutter-like 63mm
- 6 valance options to match and frame the blinds beautifully
- Option of cloth or decorative tape to cover the ladders
- Option of brushed aluminium head rail colours — silver, white, antique brass or black
- A palette of 50 stains and colours, as well as custom colours
- Privacy Blind option for superior closure, improving light block and privacy
